A photograph of a woman with long dark hair looking towards a man whose profile is visible in the foreground. The background is a soft-focus outdoor scene.

# HOW WE MAKE LUXURY SNEAKERS AFFORDABLE?

We manufacture on our own factory in Portugal.  
To meet the highest quality and craftsmanship standards our artisans have decades of experience. We craft shoes since 1941.

We source locally the finest quality leathers, linings, natural rubbers and other materials.

To offer you the best price for a high end sneaker, we keep our production quantities small and made to order.

# CONSTRUCTION DONE BY HAND

The right blend of luxury and quality at the right price. Timeless designs define style. For us style lasts years, not seasons. Great style never goes out of vogue. Rather from pursuing fads, we use timeless designs to create elegant and exquisite products. We only work with certified full grain leathers from Portugal. They are long-lasting and they get better with age. Soft and durable, it'll develop a lovely patina with time, just like all high-quality leather.
